# WEATHER SYNOPSIS BY REGION

## **NORTHERN CALIFORNIA**

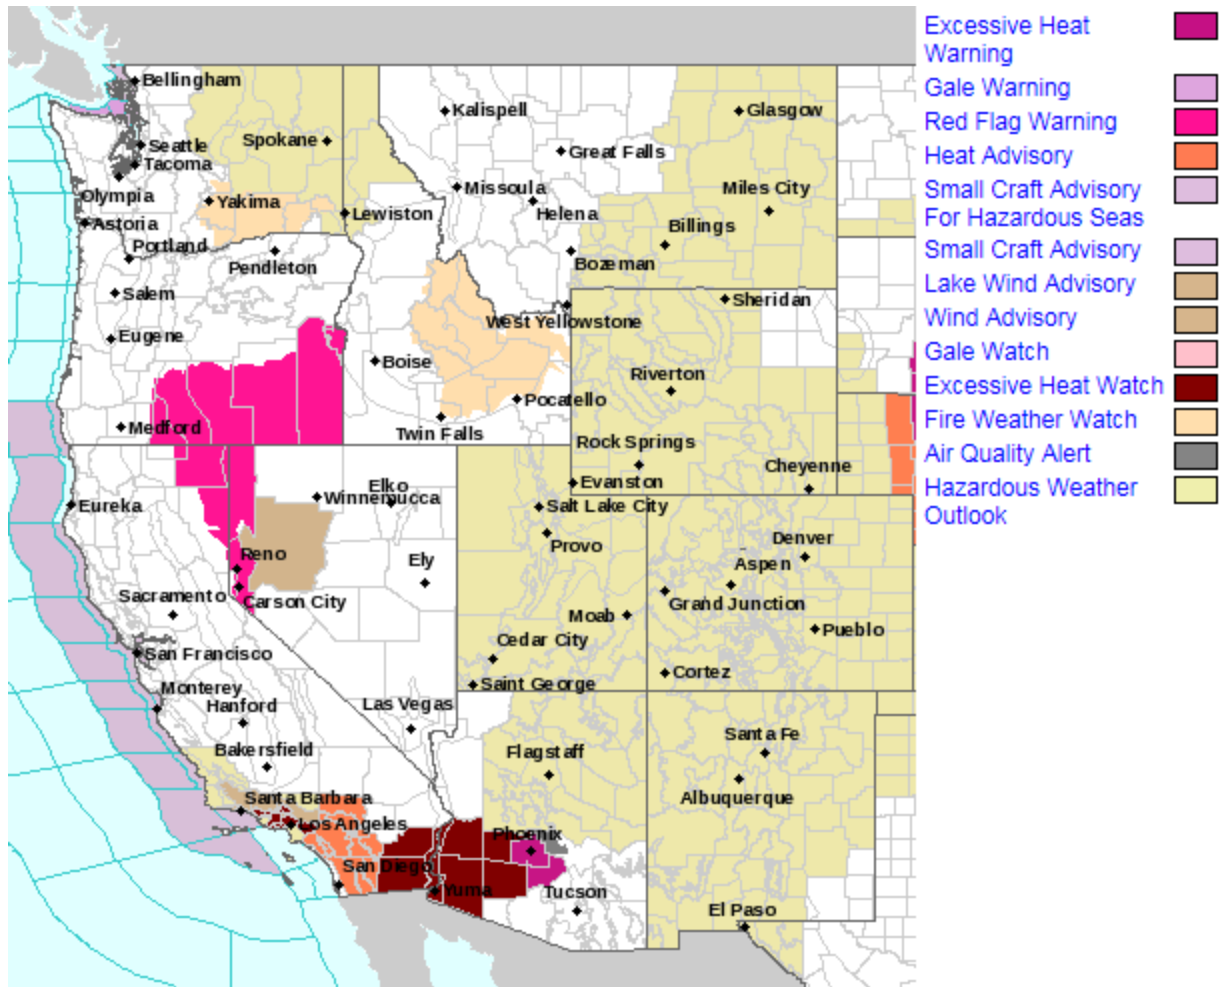

The low pressure trough that has been lingering off shore for a few days will be shifting eastward today and Friday. Moderately strong, gusty SW to W winds will develop near and east of the Cascade/Sierra crest this afternoon that will also cause some very low RH values. The Modoc Plateau, the higher elevations near and east of the northern Sierra very southern Cascades, and areas in the Far Eastside PSA will see afternoon wind speeds of 12-22 mph with gusts mostly 35-to-near-40 mph develop today. RH will also drop to around 6-12% for several hours in these windy areas. The trough will also probably generate some small afternoon cumulus clouds over the NW mountains, but nothing so large as a thunderstorm. High pressure will take over the weather pattern this weekend with a steady warming trend generating above normal temperatures. Afternoon highs will be in the mid and upper 90s for the warmest inland areas through Friday, then over the weekend into the middle of next week be on the order of 5-10 degrees above normal with 105-108 in the warmest inland valleys by the middle of next week. Afternoon highs around 110 may become possible later next week. Afternoon RH and overnight RH recovery will drop to poor to low-end moderate values in a lot of areas. The coastal marine layer will also likely be quite thin overall next week. Outside of today's gusty winds and some noticeable local overnight northerly winds Friday and Saturday, wind speeds into next week will generally be quite light and mostly of local, terrain-driven, seasonable diurnal patterns.

## **SOUTHERN CALIFORNIA**

Surface high pressure off the Northern California Coast along with surface low pressure along the Colorado River will bring northwest to north winds of 15 to 30 mph with gusts to 50 mph to the mountains of Southern California from the Santa Ynez Range east to the I-5 Corridor and to the Kern County mountains late this afternoon through Saturday night. Winds will be at their strongest during the overnight hours and peak Friday night. Strong high pressure aloft moving west from New Mexico will continue to bring hot temperatures along with minimum humidity in the single digits and teens away from the coastal areas through Saturday. Maximum temperatures will be in the mid 80s to mid 90s across the mountains with upper 90s to 110 in the valleys. The area of high pressure aloft will weaken a little and become centered over the Four Corners Area Sunday through the middle of next week. This will bring some cooling to the coast and coastal valleys, but interior locations will see little change in the well above normal temperatures. Minimum humidity will increase to 15% to 25% south and east of Los Angeles County starting Monday as moisture starts to move in from the southeast. A chance of isolated afternoon showers and thunderstorms will occur across the mountains and deserts of Southern California east of the Cajon Pass Monday through the middle of next week.

## WEATHER MAP

# **CAL OES Proclamations**

## **Erskine, Vegetation Fire, Lake Isabella, Kern County Proclamation**

On 06/23/16, Kern County proclaimed a local State of Emergency due to the Erskine Vegetation Fire.

- There are no requests for state assistance.
- An FMAG (#FM5131) was issued for the Erskine Fire on 06/24/16.
- Governor Brown proclaimed a State of Emergency in Kern County on 06/24/16.
- Kern County submitted a Proclamation Continuance of the local emergency on 7/07/16.
- On 07/18/16, Kern County sent a Ratifying Proclamation for the Erskine Vegetation Fire requesting CDAA when the scope of damages are fully known. Also a Local Health Emergency Proclamation was received but not requesting assistance.

## **Los Angeles County – Fruitland Incident (Magnesium Fire in Maywood)**

On 06/18/16, Los Angeles County proclaimed a Local Emergency.

The County is requesting:

- A Governor's Proclamation including CDAA and to waive regulations that may hinder response and recovery efforts.
- The State to expedite access to State and federal resources and any appropriate federal relief programs.

On 06/20/16, Maywood City issued an Emergency Proclamation.

The City is requesting:

- A waiver of regulations that may hinder response and recovery operations for the Fruitland Magnesium Fire and CDAA.

On 06/23/16, the City of Vernon issued an Emergency Proclamation.

The City is requesting:

- A Governor's Proclamation including CDAA and to waive regulations that may hinder response and recovery efforts.
- The State issue a Proclamation declaring an emergency in the City of Vernon
- The State to expedite access to State and Federal resources and any other appropriate federal disaster programs.

# CAL OES LAW ENFORCEMENT MISSIONS

## New Cal OES LAW Missions

- **2016-LAW-25290**, 07/20/16 at 2230 hours, CSWC paged to contact Inyo SO regarding SAR mission on Mt. Whitney. Looking for 68 y/o male hiker who was separated from his party and continued up mountain. LDO contacted Inyo SO. They had already contacted China Lake Mountain Rescue (Kern County Sheriff) to assist. LDO provided mission number. If search does not locate the MP on 7/21, they will be calling for additional resources. **Mission Ongoing**

## Ongoing Cal OES LAW Missions

- **2016-LAW-25181**, Confidential mission to support a multi-day operation. T-Com providing MIGU and CANG providing blue force tracking support. **Mission Ongoing**

# Emergency Management Assistance Compact

## Emergency Management Assistance Compact (EMAC)

In response to the City of Cleveland's request the California Highway Patrol (CHP) to provide 300 officers and Cal OES will provide 1 liaison to assist the City of Cleveland Police Department with crowd control support during a major event from 07/15/16 through 07/22/16.
